Water Management Certification

Water budgeting is now enforced by law by the Model Water Efficient Landscape Ordinance (MWELO). Becoming a Certified Water Manager is essential for your business.

Hiring a Certified Water Manager will enable you to reduce your water waste, reduce your water bills and save money. Through efficient, proven industry methods of water management, our water managers have been able to save their clients significant amounts of water and money.

president's message

Evan Moffitt, CLCA-SLO President Site One Landscape Supply

I hope everyone is having a great fall. There are a lot of things going on in California. We're having a late fire season (pray for everyone's safety). There have been planned power outages all over California, fortunately none that I know of in our area. Maybe the Central Coast has done a good job with our fire management? We have been very fortunate on the Central Coast to not have been as affected by forest fires as other areas in the state.

What's new in the industry? There has been a TON of action with the banning of Glyphosate. Have you seen the TV ads,

Facebook ads, etc? It has been a windfall of litigation for a product that is less toxic than most. I didn't say it wasn't toxic... Just that there are other herbicides that are not as widely known. What are you doing? Organic? Foam? Burning weeds with flame throwers? How about battery operated equipment? Is it any good? Next year we are planning a Landscape Technology Summit. These will be hot topics.

We just wrapped up one of our biggest golf tournaments yet! Congratulations to our winners. We had a lot of familiar faces and a bunch of new ones. We were able to generate over \$1300 dollars for the Cal Poly Colligate Landscape Team for their upcoming trip to the National Competition. We had a huge amount of vendor support. Thank you again to all those that contributed. There were tons of highlights but here are a few.

Have you ever done a backflow toss? Thanks to Paul Wait from Zurn Industries everyone got their chance. Congrats to Shantelle from Belgard who won the longest drive OPPOSITE handed. Everyone had a hard time with that one. I may or may not have hit one of the guys from Engel and Grey on one of my drives. All in all it was another fun event whether

you came to golf or just hang out.

Coming up we have our general elections on November 7th, 6-8PM at Tin City Cider. Come join us for a social event, network, and elect next year's board. We are still in need of a few board members if you are interested, or willing, to be involved. Have a voice in what we do and make the most of your membership. Here are our projected nominees and the board positions available. Please remember that these are only board recommendations and we are all very accommodating. If you have something that you are passionate about please let us know. Also, employees of member companies are encouraged as well.

Specialized Insurance & Business Services for Members of the Green Industry

Chapter Sponsor Spotlights

CLCA Insurance Solutions

At CLCA Insurance SolutionsTM, the members of California Landscape Contractors Association can find a total insurance solution. We are here working hard to keep your exposures to risk to a minimum. CLCA Insurance Solutions is CLCA's ONLY endorsed program and provides members with competitive insurance placement while providing support beyond the quoting and binding experience. Our extensive knowledge of insurance, expertise in risk management, dedicated and personal service enables us to be effective in addressing clients' needs and developing appropriate solutions to fill those needs. Whether you need a quotation, to make a policy change, have a question about billing, or need to report a claim; our professional service staff will be there to assist you.

We at CLCA Insurance Solutions[™] help protect your substantial assets and secure your future by providing individualized attention to your account. As your business grows, your insurance needs become more complex. Our dedicated team of personable and knowledgeable professionals will help you determine the appropriate levels of protection your business — your future — requires.

Landscaping companies need insurance that adapts to the fluxes of a seasonal business. In peak season, you need a carrier that is flexible with vehicle and equipment coverage or when your payroll is lower in the slow season, you need that reflected in your premiums. We can advise you on how to make that happen. When you need to make changes during the season, you need an agent that responds quickly. You need someone that answers your phone calls! And you need an agent that understands the local environment and can match coverage options to your situation.

Who we are and are not:

We are not "fast food" and "one-size-fits-all." We make a careful analysis of the risks unique to you and your company. Our staff is knowledgeable and has extensive experience and will discuss the best way to minimize your risks and close possible gaps in your coverage. We will provide a custom-fit insurance plan based upon your risk profile and your budget.

Services for Landscape Firms

- •Contract review assistance for insurance compliance
- Coverage analysis and review
- •Loss Control and Claim reduction analysis
- •Quick turnaround for insurance proposals and coverage options
- •24/7 available for Certificates of Insurance & Auto Identification Cards
- •Access to monthly and quarterly on-line Risk Management tools
